

Smart Printed Sensor Solutions Await You at CES 2024

We hope this note finds you well. Interlink Electronics is excited to be attending CES once again, in Las Vegas from January 9 – 12, 2024.

Interlink Electronics Inc. (Nasdaq: LINK) is a world-leading provider of smart, printed sensors and complete solutions for HMI and environmental sensing, that enable connected IoT systems targeting multiple end markets. Our portfolio of force, piezo, gas, trackpad sensors and membrane keypads, along with our expertise in developing custom engineering solutions, makes us an ideal choice for all your sensor system needs.

At CES 2024, we are getting ready to showcase our latest advancements that blend cutting-edge technology with user-oriented solutions. Come see our interesting demos for both FSR and gas sensing. Our gas sensing demo will demonstrate food quality (freshness) monitoring, protecting against harmful indoor gases, and more. We invite you to visit us at booth #51216 at the Venetian Expo. We are part of the Organic Electronics Association (OE-A) Pavilion. We would be pleased to schedule a private meeting to discuss our latest offerings as well as potential collaboration opportunities. To arrange a meeting or for any inquiries, please feel free to contact us at CES2024@iesensors.com or [+1-510.857.1138](tel:+15108571138). We look forward to engaging in fruitful discussions during CES 2024! Reach out now and we can also provide you with a discount code which can be used during registration.

Sincerely,
Steven N. Bronson,
Chairman & CEO
