

QUALITY ASSURANCE POLICY

The Quality Assurance Policy of Calman Technology Ltd. is to implement and maintain a Quality Assurance System at least meeting the requirements of BS EN ISO 9001:2015. Quality Objectives are established and reviewed by the company's senior officers at the Management Review with the aim of continually improving the effectiveness of the Quality Management System whilst maintaining its suitability. The company's strategic direction has been taken into account in developing this policy, setting quality objectives and in Risk Management.

The company aims to provide all of its customers with a high-quality, cost-effective service to the requirements of the customer, including their delivery requirements.

The purpose of the Quality System, as detailed in this Quality Manual and supporting documentation, is to ensure that all services provided are in compliance with customer's requirements and that they are met in full.

Compliance with this Quality Policy is mandatory for all personnel employed by Calman Technology Ltd. Encouragement is given to all employees to develop and maintain an attitude of continual quality improvement within their area or activity and this policy is applicable throughout Calman Technology Ltd.

Copies of this policy will be made available to all interested parties when requested and appropriate.

Responsibility for implementation of the contents of this Quality Policy is hereby delegated to the Production Control Manager who has the complete responsibility for the day-to-day running of the Quality System. He will represent the company in all matters that relate to Quality Assurance and has full authority, freedom and responsibility to monitor the effectiveness of the Quality System through regular Audits and Corrective and Preventive Action Reviews.
